+55 19 98609 6281

Senior Full Stack Software Engineer with 20 years of experience across media, finance, retail, and agency sectors. Specialized in React, Next.js, Node.js, and Express, as well as data visualization (D3.js, Chart.js), animations (GSAP), and cross-platform mobile development with React Native. Proficient in CI/CD environments (AWS, GCP, Azure), Docker, and modern dev practices (Agile, code reviews, testing, SOLID). Committed to delivering high-quality solutions.

EDUCATION

Australian Pacific College, UX Design Diploma @ Sydney/Australia   2013 - 2015

UFABC, Bachelor's Degree in Computer Science @ Santo Andre/Brazil   2008 - 2012

WORK EXPERIENCE

Dog and Pony Studios   **Toronto, ON**

Senior Front-end Developer   April 2024 – Present

Full-service agency specializing in the financial industry, serving companies like S&P, CIBC, BMO and RBC.

- Create highly customizable websites using Contentful, React/Next.js and Tailwind including responsive user interfaces.
- Develop reusable components and showcase them in Storybook.
- Integrate the React app with the Contentful CMS using GraphQL.
- Assist designers in adapting designs to significantly reduce development time.
- Improve development processes to shorten project delivery time.
- Reduced QA issues by 42% by introducing peer reviews culture.

Domino's Pizza   **Michigan, USA**

Senior Front-end Developer   August 2022 – April 2024

Leading global pizza delivery company specializing in providing quick and convenient meal solutions.

- Developed a global web application using React, GraphQL, Redux, RxJs, and SASS to replace an on-premises system.
- Collaborated with managers and senior developers using Agile to define sprint deliverables in technical refinement sessions.
- Initiated weekly sessions to address project challenges, aiding junior developers and those unfamiliar with certain libraries.
- Maintained test code coverage above 90% for unit and integration tests using RTL/Jest.
- Mentored junior developers to understand the tech stack and improve code quality.

Luizalabs   **São Paulo, Brazil**

Senior Full Stack Engineer   November 2018 – August 2022

Technology division of Magazine Luiza, a leading global retailer offering shopping solutions.

- Partnered with the UX Designer to offer technical insights, ensuring proposals were feasible and effectively implemented.
- Upgraded and optimized the codebase to enhance performance and scalability.
- Expanded unit testing coverage to ensure application reliability and robustness.
- Collaborated with backend developers on data normalization and integration to maintain data consistency.
- Ensured application compatibility and responsiveness across multiple devices and platforms.
- Managed the deployment process, successfully releasing applications on Google Play and the Apple App Store.
- Conducted thorough code reviews to maintain high code quality and best practices within the team.

Unitransact   **Sydney, Australia**

Senior Full Stack Engineer/UX Designer   August 2013 – November 2018

Australian fintech startup dedicated to providing efficient online currency conversion services.

- Identifying and fixing bugs to ensure smooth user experiences
- Designing and implementing new features to meet evolving business needs
- Creating responsive designs for optimal viewing across various devices
- Ensuring cross-browser compatibility for consistent performance
- Optimizing website performance for faster load times and improved SEO
- Producing graphic materials for marketing and online presence
- Maintaining and updating the company's main and secondary websites

Jovem Pan Group   **São Paulo, Brazil**

Web Designer   September 2005 – March 2013

Broadcaster in Brazil, offering a wide range of programs on both AM and FM frequencies.

- Created tailored web pages for events, promotions, and blogs using WordPress.
- Led the front-end design and development of the AM station's main page.
- Supported back-end development and server configuration for the rebuilt website.
- Designed and developed web pages for various online initiatives.
- Crafted promotional graphics and interactive content using Photoshop.
- Created presentations and animated banners with Flash.
